

PUNCHING CRADLE

Are you a bookbinding enthusiast looking to elevate your craft?

Discover the joy of creating **perfectly aligned** holes in your signatures with this easy-to-follow **Punching Cradle Tutorial** – now available for free!

Why you'll love this tutorial:

- **Effortless precision:** Learn how to use a punching cradle to achieve consistent, flawlessly aligned holes, making the sewing process smoother and your finished books more professional.
- **Step-by-Step guidance:** This tutorial takes you by the hand, guiding you through each step with clear instructions and helpful tips, ensuring you can master the technique regardless of your experience level.
- **Boost your bookbinding skills:** This tool is a game-changer for both beginners and seasoned bookbinders, simplifying a crucial part of the bookbinding process and enhancing the overall quality of your handmade books.

Share the Love, Not the Profit:

I am thrilled to offer this tutorial completely free because I believe in sharing knowledge and passion for bookbinding. All I ask in return is that while you're free to use and enjoy this tutorial **for personal projects** or teaching others, please respect the **copyright** and **do not sell** the tutorial or any derivative works. Let's keep the spirit of creativity and learning alive in our community!

Dive into a new chapter of your bookbinding journey:

Whether you're looking to perfect your technique or tackle new and challenging projects, this **Punching Cradle Tutorial** is your key to unlocking a world of possibilities.

Download it today and take the first step towards more beautiful, professionally finished books that you'll be proud to show off!

Remember: This tutorial is a labor of love, intended to spread the joy of bookbinding far and wide. I can't wait to see the amazing projects you'll create with a little help from your new favorite tool.

Happy bookbinding!

/Suzete

PUNCHING cradle

TOOLS:

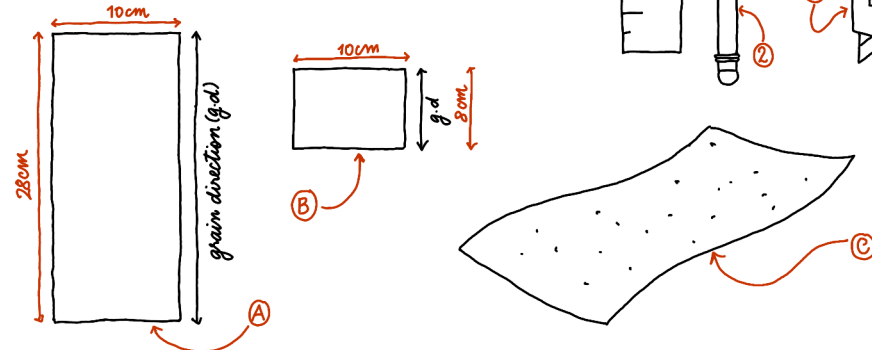

- 1- RULER (better if metallic)
- 2- PENCIL (to mark the measurement)
- 3- KNIFE (to make clean cuts)
- 4- GLUE (to attach the different pieces together)
- 5- BRUSH (to help spread the glue)
- 6- ERASER (in case you want to remove the pencil marks)

MATERIALS:

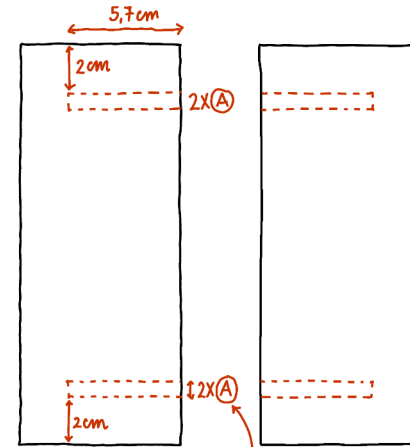

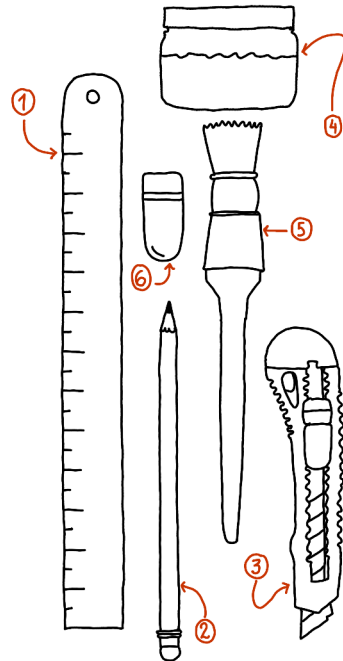

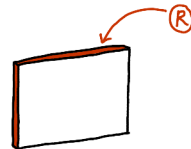

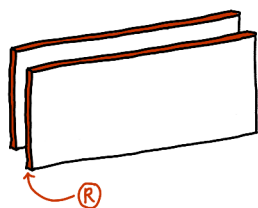

- (A) 2X CARDBOARDS, 10X26cm (choose your thickness)
 (B) 8X CARDBOARDS, 10X8cm (same thickness as (A))

— glue
 - - - cut

- (C) 2X FABRIC, 10X28cm (go wild here!) If you want it to cover the whole boards use 20X28 instead

* A good tip is to use your cardboard thickness as reference, let's call that (R)

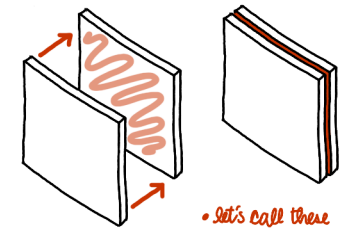

two times the thickness
of your boards

1. MARK AND CUT

Openings on the long boards (A). These should have the width of two boards. If you are using 2mm board the opening should be of 4mm.

2. GLUE SOME OF PIECES (B)

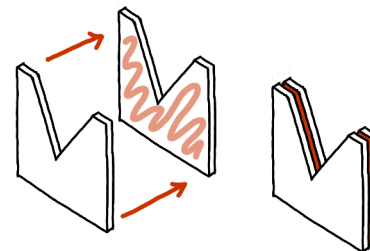

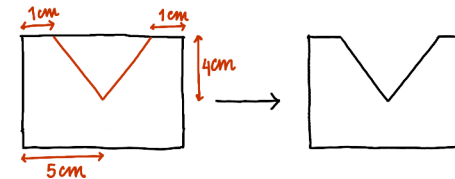

Of the 8 small pieces (B), take four and glue them together 2 by 2. You'll have two of these.

let's call these pieces (M)

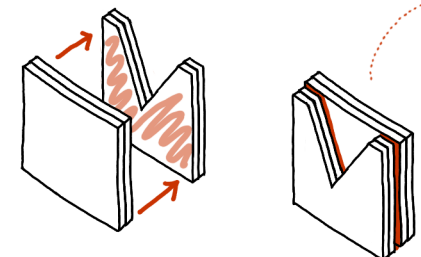

3. CUT AND GLUE THE REST OF PIECES (B)

Take the other 4 pieces, mark the following dimensions and remove the triangular pieces by cutting with the knife. After that, glue them together, 2 by 2. Again, you'll have 2 glued pieces.

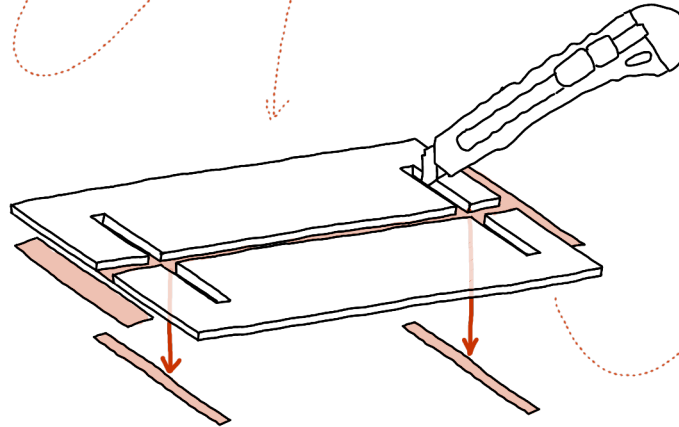

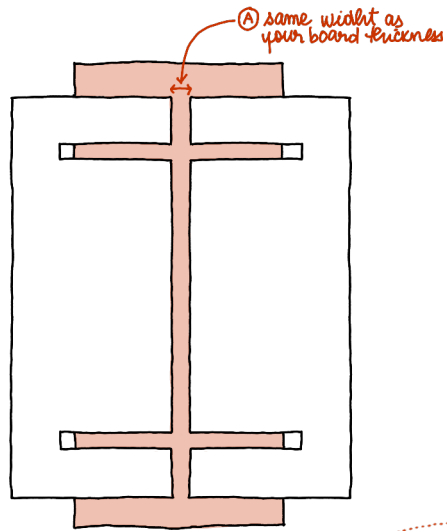

let's call these pieces (P)

* When you are done glue the one (M) piece together with one (P) piece. Do the same with the other (M) and (P) pieces.

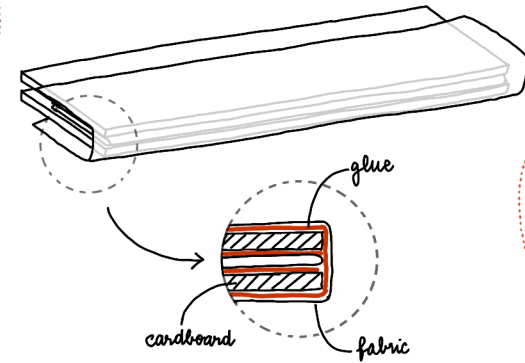

4. GLUE AND CUT FABRIC

Glue the two long cardboard pieces (A) on to one of the sheets of fabric. After that, use the knife to trace and cut the part that are not glued to the cardboard.

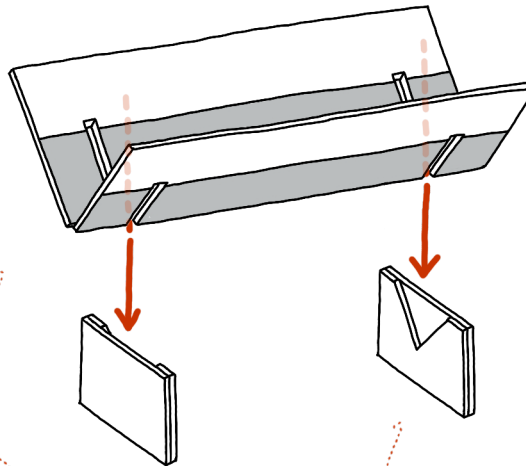

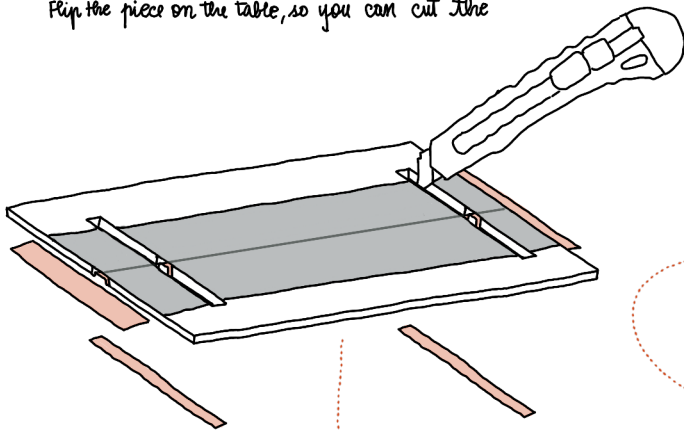

5. FOLD AND REPEAT

Fold the board and glue the other piece of fabric so it touches the edges of the 2 pieces of cardboard. After glueing open the piece flat on the table and make the fabric always get tucked in between the boards.

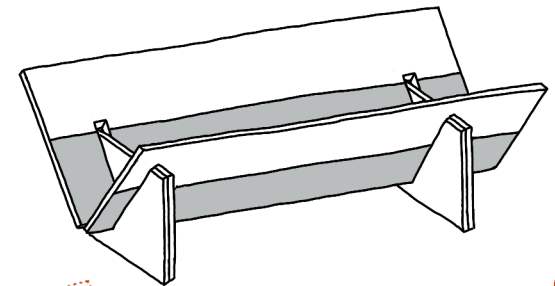

6. CUT THE OTHER SIDE

Flip the piece on the table, so you can cut the

7. ASSEMBLE

Put all three pieces together and enjoy your cradle! ♥

happy punching!
